Brief

Your challenge is to build out this profile card component and get it looking as close to the design as possible.

You can use any tools you like to help you complete the challenge. So if you've got something you'd like to practice, feel free to give it a go.

Download the starter code and go through the `README.md` file. This will provide further details about the project. The `style-guide.md` file is where you'll find colors, fonts, etc.

Want some support on the challenge? [Join our Slack community](#) and ask questions in the help channel.

Getting started

1. Download the starter code
2. Set up the project with version control (e.g. Git)
3. Read the `README.md` file and have a look around the project
4. Get colors, fonts etc from the `style-guide.md` file
5. Set up your project/file architecture however you want
6. Start coding!
